## Things to know about credits

- 1 render credit equals \$1 USD.
2. All payments received are converted to USD using a currency exchange rate from Google.
3. Payments made via Dotpay and PayPal are automatic and should be reflected on your account within a few minutes.
4. When using a wire transfer, please talk to us first and remember to write your User ID in the description of the payment. We will add the credits to your account as soon as we receive the money.
5. If you are in a hurry, please send us the payment bank receipt/confirmation. We will add the credits to your account before we receive the money which may take up to 3 business days.

## How to get an invoice

1. Let us know that you need an invoice for the payments you made. We will need your company's name and address, so please make sure to fill out the profile on your account.
2. If you are from the European Union, we will also need your VAT registration number.
3. If you are a UK business, we will need to add VAT (20%) to your bill. Generally, HRMC (HM Revenue and Customs) will refund you the VAT amount after filing the VAT Return form.
